1. The Soviet RTO ordered that 15 type 52 locomotives be kept in reserve,  
effective 15 July 1950. They are kept "cold" on a special siding and  
are guarded. \*

\* Comment. These locomotives are heavy freight locomotives. It  
has not yet been determined whether they are assigned to Locomotive  
Columns 9 and 10 which are stationed in Cottbus and operate only for  
the Soviets, whether they belong to the SCC or to the German Railroad  
(RBD) Reserve, which was formed by Soviet order, or  
whether they are locomotives detached from the operational park of  
the Cottbus railroad district. It is most probable that they are SCC  
or German Reserve locomotives.
